ECONOMETRIC THEORY

Editor: Peter C.B. Phillips

Econometric Theory is an international journal dedicated to advancing theoretical research in econometrics. The journal provides an authoritative, centralized, professional outlet for original contributions in all of the major areas of econometrics. As well as periodic book reviews and articles that embody original theoretical research, the journal publishes historical studies on the evolution of econometric thought and on major scholars. **Econometric Theory** also serves an educational role by the inclusion of an ongoing **Notes and Problems** series and by **Econometric Theory** Interviews with preeminent scholars in the field.
