Journal Description: Tables of contents for recent issues of *The Review of Financial Studies* are available at <http://rfs.oupjournals.org/contents-by-date.0.shtml>. Authorized users may be able to access the full text articles at this site.

The Review of Financial Studies is a major forum for the promotion and wide dissemination of significant new research in financial economics. As reflected by its broadly based editorial board, the *Review* balances theoretical and empirical contributions. The primary criteria for publishing a paper are its quality and importance to the field of finance, without undue regard to its technical difficulty. Finance is interpreted broadly to include the interface between finance and economics.
