# Economics *from* Washington

**Economics from Washington** provides macroeconomic research to institutional money managers. We provide statistical analysis based on a detailed understanding of how the data are constructed and an understanding of how policy decision impact financial markets. The service includes weekly, monthly, and quarterly publications along with telephone and in-person consultation with our staff.

Prior to founding **Economics from Washington**, Dr. L. Douglas Lee was Chief Economist for NatWest Securities, HSBC Securities, and Washington Analysis Corporation
