摘要:

排他性作为准公共产品的一项技术特征,其机制设计决定于准公共产品的本质属性,即其社会性,这就要求排他性机制的设计必须与包容性增长和基本公共服务均等化的目标相适应。对准公共产品的排他性机制进行重构,应依据该类产品的公共性、排他性的强弱以及消费过程中的不均等性对个人效用、经济增长和社会稳定的影响大小,分别设计不同的排他性机制,并从根源上摒弃原有的非均衡发展策略,优化财政支出结构。

**关键词:** 准公共产品 排他性机制 公共服务均等化 本质属性 包容性增长

Reconstruction of Exclusive Mechanism and Equalization of Benefit from Quasi-public Goods: A New Path to the Realization of Inclusive Growth

Ye Hang Wang Guoliang

Abstract:

Excludability is labeled as one of the technical characteristics of quasi-public goods and its exclusive mechanism design depends on the essential attribute of quasi-public goods, or its social attribute, which requires the exclusive mechanism design to agree with the goals of inclusive growth and the equalization of basic public services. The reconstruction of exclusive mechanism should be based on the strength of public nature and excludability of quasi-public goods. It should be based on the effect of inequality on personal utility, on economic growth and social stability in the process of sharing this kind of goods. Therefore, various exclusive mechanisms can be devised according to the two standards above. Furthermore, the original non-balanced development strategies should be abandoned so as to optimize the structure of fiscal expenditure.

**Keywords:** quasi-public goods exclusive mechanism equalization of public services essential attribute inclusive growth
