**摘要** 在产业集群已超越一般产业范围, 集群治理理念的生态学本源回归后, 产业集群共生系统已由制造系统内的工业共生扩展至制造业与制造业、制造业与生产性服务业之间的产业共生, 以及制造业、生产性服务业、专业市场、行业商会、政府等主体之间的跨类共生, 由此, 产业集群的共生治理已由单一领域企业共生演变为在一定的集群区域中涵盖工业共生、产业共生、跨类共生在内的多产业、多领域的“大共生”治理。

**关键词:** 产业集群; “大共生”治理; 生态共生; 跨类共生

**Abstract:** After the industrial cluster has exceeded certain range and its managerial concept returned to eco-field, the coexistence in industrial cluster system has expanded from “among industries in manufacturing” to “manufacturing and manufacturing”, “manufacturing and producing service” and different entities among manufacturing, producing service, professional market, chamber of commerce and governmental agencies. Thereby, the management of coexistence in the industrial cluster has also extended from the single field to a multi-field covering different areas.

**Key words:** industrial cluster management on coexistence eco-coexistence
