## Clean Development Mechanism Cooperation in China

PDF (Size: 149KB) PP. 205-209 DOI: 10.4236/lce.2011.24025

### Author(s)

Ye Qian, Jian-Cheng Bin

### ABSTRACT

The Clean Development Mechanism (CDM) is an arrangement under the Kyoto Protocol allowing developed countries with a greenhouse gas reduction commitment to invest in projects that reduce emissions in developing countries as an alternative to more expensive emission reductions in their own countries. In terms of the CDM areas, there are huge potential commercial opportunities between China and the United Kingdom since China signed the Kyoto Protocol.

### KEYWORDS

CDM, Climate Change, the CDM International Cooperation, the Kyoto Protocol
