

Welcome to the International Centre for Economic Research (ICER) Homepage.

ICER supports scholars from all over the world by providing Fellowships to both junior and senior researchers. These Fellowships enable scholars to come together at our Institute in Turin or in Prague, and work in close collaboration with scholars at the Universities and research centres in Piemonte or at the University of Economics in Prague.

ICER organizes conferences, workshops and maintains an active [Working Paper](#) Series featuring the work of our Fellows and affiliates.
