IFAC's 2015 Plan: Delivering on Our Global Advantage

This strategy implementation plan for 2015 highlights IFAC's priorities for the coming year. Using IFAC's Strategic Plan for 2013-2016 as the starting point, the Plan aligns the strategic objectives with four operating lines.

This Plan presents the strategy in a streamlined, easy-to-read format, starting with the outcomes IFAC seeks to influence and presents IFAC's vision and mission and the impact of the environment in which IFAC operates. The Plan explains how IFAC plans to maximize opportunities and minimize risk while achieving its strategic objectives. It also presents identified cross-cutting themes (or enablers) that help IFAC achieve these strategic objectives.
