In the Czech Republic, the
viniculture tried to use the
the entry into the Europea
(1stMay 2005) for the max
development of resources
both quantitative and qual
advancement. The legisla

this sector was changed a with the legislation of the E acreage of vineyards was another 7 thousand hecta planted. The size of busin changed as well. For the t production potential of this 19.3 thousand ha of viney 18 thousand wine growers registered and there are n producers of wine. In this s approximately 20 thousan consumption of wine is gra increasing and equals 16. capita per year. As far as t grapes are concerned, it w
