Agric. Econ Czech

**Brabenec V.,
Nešetřilová H.:
On application
factor analysis
agricultural res**

Agric. Econ. — Czech, 53
447

The authors give a brief overview of the outcomes of an application analysis and present results of applications within the agricultural research. The first application is in which relations among variables characterising production of 200 high production (mair

ponds in the Czech Republic
explored using the factor analysis
method. In the second case
household questionnaire survey
analysed using factor analysis
light upon the relations among
