Agric. Econ. – Czech

V. Beňová Jančíková

Influence of selected economic differentiation factors on successfulness of farming enterprises

Agric. Econ. – Czech, 50 (2004): 561-
566

The article presents results of measuring influence of the selected economic differentiation factors on successfulness of agricultural businesses. As key factors, there were selected: the size of company, legal form, allocation based on attractions of soil – climatic conditions. Regarding certain financial indicators results and the specified order of analysed companies, they were divided into groups depending on their successfulness. Each group was compared and analysed. At the end, the results of dividing into the groups were graphically presented.

Keywords:

agricultural business, economic

differentiation, factors of economic
differentiation
