Agric. Econ. — Czech

**I. Faltová Leitmanová,
V. Krutina**

Firm condition of chosen agricultural enterprises in mountain and sub- mountain areas in South Bohemia

Agric. Econ. — Czech, 50 (2004): 266-
270

The economic evaluation of agricultural enterprises in mountain and sub-mountain areas in South Bohemia results from a financial analysis. Financial ratios enable to identify and measure the state and development of individual economic aspects of these enterprises and their synthesis through solvency model makes financial health possible to be elicited.

Keywords:

farming, mountain and sub-mountain
areas, solvency model, financial health
