Dean: Dr. Nancy Cox

The University of Kentucky [College of Agriculture, Food and Environment \(http://www.ca.uky.edu/\)](http://www.ca.uky.edu/) was founded as, and remains a land-grant institution, committed to improving the quality of life for Kentuckians. Our research, teaching, and extension programs are part of a national system that maintains a statewide presence and links local, state, and global issues. Agriculture, food, and environmental systems are key components of Kentucky's economic future, and the college is playing a prominent role in those areas with its programs.

The College of Agriculture, Food and Environment was known as the College of Agriculture before July 1, 2013.
