Newcrest Mining Limited was formed in 1990 from the merger of Newmont Australia Limited and BHP Gold Limited. Newcrest and its predecessors have a strong history of successfully exploring, developing and operating gold mines, predominantly in Australia.

Newcrest's predecessor, Newmont Australia Limited was established in Australia in 1966 with philosophy that high standards of scientific exploration and professional mine development and management were the tried and proven avenue to the creation of shareholders wealth? It is this philosophy that has continued to foster the creation of a strong, independent
