近年来，中国社会建设取得显著成效，社会政策体系不断优化，教育、医疗卫生、社会保障等社会事业不断发展，社会结构渐趋合理，社会组织蓬勃发展，公民社会正在形成之中。然而，中国社会建设中存在的一些问题，在2008-9年国际金融危机的冲击下得以凸显。当前，中国社会政策的碎片化特征明显，教育医疗等社会事业市场化改革的弊端清晰可见，社会组织的凝聚和服务能力仍然非常欠缺，公民社会难以有效发挥治理作用。中国的社会建设正处于十分关键的时期，如何推进社会政策体系的完善，合理设计社会事业的改革路径，促进社会组织的发展，发挥公民社会的自我治理和公共治理能力？回答这些问题重要而紧迫。

浙江大学公民社会研究中心、浙江大学公共管理学院拟联合举办“社会建设的中国经验与国际比较”国际研讨会，会议将聚集国内外学术精英对上述问题进行深入探讨，通过对中国社会建设经验的总结、中外社会建设经验的比较，探索中国社会建设的优化路径，以推动中国社会建设的理论升华和实践发展。

The Symposium on Chinese Societal Capacity Building in International and Comparative Perspective

20-21 November 2010, Zhejiang University, Hangzhou, CHINA

Call for Papers

In recent years, the development of societal capacity in China has made great progress. The social policy system is improving, social programs are gradually developing, the social structure is becoming more equitable, social organizations have gained momentum, and a civil society is emerging. However, in the wake of the world financial crisis in 2008-9, some latent problems existing in China's social capacity building strategies have become more obvious. For example, China's social policy system is fragmented, and disadvantages of the market-oriented reform in education and public health have been exposed, while social organizations lack both cohesive force and governance capacities. Moreover, the nascent civil society faces challenges in both successful self-governance and effective participation in public affairs. The development of societal capacity in China has reached a critical stage. Some issues must be carefully considered and dealt with seriously, including how to further improve the social policy system, how to rationalize the approach to social program reform, how to promote the development of social organizations and how to improve the autonomy and governance capacity of civil society. The Institute for the Development of Civil Society in cooperation with the College of Public Administration at Zhejiang University will convene an international conference on "Chinese Societal Capacity Building in International and Comparative Perspective", so that scholars from different countries can discuss these issues deeply and exchange viewpoints broadly. Our goal is to promote the advancement of the theory and practice of societal capacity building and governance in China.
