## **School-to-work programs: information from two surveys**

*Mary Joyce*

Economist, Formerly with the Bureau of Labor Statistics.

*David Neumark*

Professor of Economics, Michigan State University and a research affiliate at the National Bureau of Economic Research.

---

Data from the 1996 School Administrator's Survey show that three-fifths of U.S. high schools offer school-to-work programs, while data from the 1997 National Longitudinal Survey show that nearly two-fifths of students participate in such programs; also, public high school students and those who work are more likely to participate in school-to-work programs
