The transition from school to work: education and work experiences

Julie A. Yates

Research Economist, Employment Research and Program Development Staff, Office of
Employment and Unemployment Statistics, Bureau of Labor Statistics.

E-mail: Yates.Julie@bls.gov

Data from the National Longitudinal Survey of Youth 1979 found that the average worker, approximately 5 years after leaving school for the first time, starts a job that will last 3 years; however, there was considerable variation by education.
