The Canadian Journal of Educational Administration and Policy (CJEAP) is a peer reviewed online journal based at the Faculty of Education, University of Manitoba, Winnipeg, Manitoba, Canada. All work - submission, review, revision and distribution - is carried out by electronic mail. Any article may be reproduced freely, provided that the author and Journal are credited and copies are not sold.

The Journal seeks to publish thoughtful work that raises important questions and promotes debates on problems of educational practice and policy. Although each published article is called an "issue," it is published when it is ready, not necessarily according to a regular schedule such as is typical of print journals. Submissions may take various forms, such as case studies, policy analyses, reflections on dilemmas of practice, reports or reviews of research, and extended editorials. Submissions can vary in length, but normally should be about 5,000 words; both longer and shorter pieces will also be considered.

The Journal has a Canadian focus, but the editorial board will consider any material relevant to a broad Canadian readership, even if it originates outside of Canada. The intended audience for the Journal includes members of the general public, reporters, practitioners, policy makers and academics.
