## 10th edition of the AISTS MSA kicks off

On Thursday, 5 January, AISTS welcomed the new participants to the AISTS MSA. This year, the master in sport management is celebrating its 10th edition, a milestone for a programme which started in 2003 with only 9 participants mainly from Switzerland.

Today's class is made up of 34 participants from all over the world, various academic and professional backgrounds, from different cultures, speaking various languages. Whether it be in 2003, or today, the AISTS MSA participants continue to have the same goal of turning their passion for sport into a career.

AISTS wishes the new class of 2012 all the very best.
