6th Junior Researcher Meeting in Applied Linguistics

6th Junior Researcher Meeting in Applied Linguistics, 12th-14th May 2014

hosted by the University of Jyväskylä, Finland

The Junior Researcher Meeting is an annual event of AILA-Europe which showcases the research of postgraduate and early career researchers. It has been held at a different university since 2007.

This year the meeting will focus on first and second/foreign language learning and teaching. The Junior Researcher Meeting allows early career applied linguists to present their research and network in an interactive and informal international environment. 'Junior Researchers' include those working on their Master's and PhD theses, as well as those who have graduated within the last three years.

At the meeting, each paper session will have designated senior researchers as commentators to guarantee questions and discussion. The programme will also include workshops on various aspects of academic career, such as publishing and seeking for funding.
