About us

**Archiv Orientalní /
Oriental Archive:
Journal of African and
Asian Studies**

ISSN 0044 8699

Oriental Archive is a general journal dealing with the Oriental and African studies in the broad sense. It has been continuously in print since its founding in 1929.

Starting with the volume 79 (2011), the Journal appears triannually.

We publish articles dealing with the history, religion and languages of the relevant Oriental and African cultures. We strongly believe that a general journal with a long and respectful tradition, such as ours, is an important complement to a list of specialized journals. We deliberately try to challenge the current trend of hyper-specialization common in some domains of Oriental studies, emphasizing the necessity of thematic and regional contextualization, particularly in the fields that are new or less frequent. Emphasis upon the preservation of a forum for Oriental and African studies serving largely (but not exclusively) the needs of the European authors, notably the junior scholars among them, and the European academic audience is another important aspect of our editorial policy.

While English is our preferred language, we simultaneously publish articles and book reviews in French and German. Non-native speakers of these languages are provided with

proofreading facilities for free!

Unlike some big publishing houses, we still adhere to the tenets of good old-fashioned partnership between the editor and the author, namely the personal contact and the state of the art reproduction of a variety of fonts and characters in accordance with the authors' wishes.

All articles submitted to the journal are peer-reviewed anonymously.

Articles appearing in our journal are abstracted and indexed in: America: History and Life; Annual Egyptological Bibliography; Česká národní bibliografie (Czech National Bibliography); Current Contents of Foreign Periodicals in Chinese Studies (Taipei); Francis & Pascal INIST / CNRS (France); Historical Abstracts; Index Islamicus; Index Yemenicus; Index to the Study of Religions Online; International Bibliography of Book Reviews of Scholarly Literature on the Humanities and Social Sciences (IBR); International Bibliography of Periodical Literature on the Humanities and Social Sciences (IBZ); International Bibliography of the Social Sciences (IBSS); Linguistics and Language Behavior Abstracts; MLA International Bibliography; Orientalia (Roma); Orientalistische Literaturzeitung; Periodica Islamica; Periodicals Contents Index (Chadwyck-Healey Ltd.); Sociological Abstracts; UnCoverWeb, A Current Awareness and Document Delivery Service.

Currently, the journal is also listed in the Thomson Reuters [Arts & Humanities Citation Index®](#), and [Scopus](#).
