The [February 2008 newsletter](#) is available.

[Special offer for SMT members](#) on subscription rates for the *Journal of Mathematics and Music*, published by Taylor and Francis

OUR PURPOSE

The Society for Music Theory was founded in 1977. The Society holds annual meetings, publishes two journals (*Music Theory Spectrum* and *Music Theory Online*), and encourages scholarly excellence by giving awards for outstanding publications in music theory. We also work to increase the diversity of our discipline and to promote fruitful exchanges between music theorists, musicologists, performers, and scholars in other fields.
