ADVICE FOR YOUNG DANCERS

Dance/USA advances the art form of dance by addressing the needs, concerns and interests of the professional dance community.

Dance/USA means CONNECTION.

With journals, monthly member bulletins, specialized listservs, and a collection of studies and booklets, our communications keep you connected to the field.

Dance/USA means KNOWLEDGE.

Our director of research and information, John Munger, has collected national and regional data and information that informs arts professionals and policy leaders about our field's history, health, and future.

Dance/USA means ACCESS.

We connect you to a national network of peers through seminars, topic-based discussions and skill-building workshops at our regional forums and Council meetings, and through our annual national conference.

Dance/USA means INFLUENCE.

We are your voice in the nation's capital. We'll keep you informed of current issues affecting the arts so you can be involved.

Dance/USA means STRENGTHENING DANCE in America.
