Welcome to the Art Department

The challenge for visual artists is to discover what is already there, to open up and probe what is inside and outside themselves and to find a means of giving it back to the whole world. It is this adventure which is the focus of the Department of Art.

A student may either major or minor in art, and eventually choose one or more specific areas of concentration. The choice is governed by the student's experiences with various media, concepts and techniques, but this is not a rigid choice as new interactions among these elements are constantly being developed. Five plans are available for students working for the Bachelor of Arts in Art and four options are available for a minor in art. The areas of concentration currently offered are: art history, art education, ceramics, glass, graphic design, graphic design and marketing, painting and drawing, photography, printmaking, sculpture, and woodworking and furniture design. Each program provides a strong foundation in art history, theory and practice with the specialized instruction and experience necessary to be competitive and successful in a wide range of fields in art and design.
