... 3696/12226; 30.2% ...  
Hartwell (賴德...), Demographic, Political, and Social Transformations in China, 750-1550- (1982) L This procedure ignores both demographic reality and the role of extended family ...  
Southern Sung (1986) L Kracke's conclusions might be rescued if one argued that in fact only direct lineal ties determined social status or were politically effective. ...  
On both methodological and empirical grounds, then, Kracke's figures cannot be accepted as they stand: everything suggests that they greatly overestimate the speed at which men unrelated to officials moved into office. ...
