

## 2003年度

发布: 2003-12-29 | 作者: admin | 来源: 数学研究所 | 阅读: 次

1. Lih Ko-Wei, Wang Weifan, Zhu Xuding, Coloring the square of a K4-minor free graph, Discrete Mathematics, 269 (2003) 303-309.
2. Lih Ko-Wei, Tong Li-Da, Wang Weifan, The linear 2-arboricity of planar graphs, Graphs and Combinatorics, 19 (2003) 241-248.
3. Zhu Weiyi, On the general Gauss sums and its fourth power mean, Far East Journal of Mathematical Sciences, 10 (2003) 241-246.
4. Li Jinqi, Chen Miaosen, New examples of noncommutative and oncocommutative bialgebras, Advances in algebra, 424-433, World Scientific Publishing, River Edge, NJ, 2003.
5. Chen Huanyin, Chen Miaosen, Li Jinqi, T-stable ideals of regular rings, Advances in algebra, 291-300, World Scientific Publishing, River Edge, NJ, 2003.
6. Chen Fangyue, Chen Fengjuan, Model shift and strange attractor on Möbius strip, Applied Mathematics and Mechanics (English Edition), 24 (2003) 845-852.
7. Wang Yingqian, Local most reliability of nearly regular complete bipartite graphs, Applied Mathematics, A Journal of Chinese Universities (Series A), 18 (2003) 365-370.
8. Hao Jianxiu, Maximum cutwidth problem for graphs, Applied Mathematics, A Journal of Chinese Universities (Series B), 18 (2003) 235-242.
9. Wang Shiyong, Hao Jianxiu, The extreme set condition of a graph, Discrete Mathematics, 260 (2003) 151-161.
10. Wang Yuanheng, Shen Zifei, Generalized Schauder bases and the generalized topological degree for generalized A-proper mappings in Banach spaces, Chinese Annals of Mathematics (Series A), 24 (2003) 531-540.
11. Fu Junyi, Wang Yuanheng, Arcwise connected cone-convex functions and mathematical programming, Journal of Optimization Theory and Applications, 118 (2003) 339-352.
12. Chen Huanyin, Chen Miaosen, GM-conditions and GM-rings, Southeast Asian Bulletin of Mathematics, 27 (2003) 1-8.
13. Chen Huanyin, Chen Miaosen, On clean ideals, International Journal of Mathematics and Mathematical
