Academy of Mathematics and Systems Science, CAS Colloquia & Seminars

Speaker: Kai Ino, BIMSA**Inviter:****Title:** Characterizations of Separably Differentially Closed Fields**Language:** Chinese**Time & Venue:** 2023.08.28 14:00-15:00 思源楼S525**Abstract:**

In this talk, we define a new class of differential fields called separably differentially closed fields and show their several characterizations by comparing them with differentially closed fields of characteristic zero studied by E. Kolchin. We also explain their model-theoretic properties. This is joint work with Omar Leon-Sanchez.
