Operator Algebras and Harmonic Analysis 2017

This workshop aims to provide a unique opportunity to bring together specialists and active researchers from some Pacific RIM countries, as well as some European countries, in the areas of operator algebras, operator space, group algebras (including Fourier algebras, group C^* -algebras and group von Neumann algebras) and quantum groups to discuss and communicate on these exciting mathematical problems. The workshop will present the state of the art in these areas and promote advancement of the subject.

Organizers

Name	University
Anthony To-Ming Lau	University of Alberta, Canada
Chi-Keung Ng	Nankai University, China
Zhong-Jin Ruan	University of Illinois, USA
Ngai-Ching Wong	National Sun-Yat-Sen University
