Matthias Aschenbrenner, Stefan Friedl, Henry Wilton

(Submitted on 1 May 2012 (v1), last revised 2 Jul 2012 (this version, v2))

We summarize properties of 3-manifold groups, with a particular focus on the consequences of the recent results of Ian Agol, Jeremy Kahn, Vladimir Markovic and Dani Wise.

Comments:	118 pages, 6 coloured diagrams, coloured printing recommended. Comments are very welcome. The second version now incorporates the recent result of Piotr Przytycki and Dani Wise
