编 号	作者	论文题目
1	Huang, YZ(黄永忠)	Modified quasi-reversibility method for final value problems in Banach spaces
2	Zhu, SG(朱三国)	Quantization dimension for condensation systems
3	Zhu, SG(朱三国)	The lower quantization coefficient of the F-conformal measure is positive
4	Zhu, SG (朱三国)	Quantization dimension of probability measures supported on Cantor-like sets
5	Zhu, SG (朱三国)	Quantization dimension for condensation systems II: The geometric mean error
6	Zhu, SG (朱三国)	An intermediate-value theorem for the upper quantization dimension
7	Chen, HB; Wen, ZX(文志雄); Xiong, Y	Dimensions of level sets related to tangential dimensions
8	Tan, Bo(谭波),Wen, ZX(文志雄)	Periodicity problem of substitutions over ternary alphabets
9	Tan, Bo(谭波),Wen, ZX(文志雄), Zhang, Yiping	On the triplex substitution - combinatorial properties
10	Tan, Bo(谭波),Wen, ZX(文志雄), Zhang, Yiping	On the triplex substitution - Rauzy fractal
11	Deng, GT; He, XG; Wen, ZX (文志雄)	Self-similar structure on intersections of triadic Cantor sets
12	Li, Bing; Wu, J (吴军)*	Beta-expansion and continued fraction expansion
13	Li, Bing,Wu, Jun (吴军)	Beta-expansion and continued fraction expansion over formal Laurent series
14	Li, Bing, Wu, Jun (吴军), Xu, Jian (徐剑)	Metric properties and exceptional sets of beta-expansions over formal Laurent series
15	Wu, J (吴军)	An iterated logarithm law related to decimal and continued fraction expansions
16	Wu, J (吴军)	A remark on continued fraction with sequences of partial quotients
17	Wang, XY; Wu, J (吴军)*	Packing dimensions of homogeneous perfect sets

- 18** Wang, BW(王保伟); Wu, J(吴军) A problem of Hirst on continued fractions with sequences of partial quotients
- 19** Wang, BW(王保伟); Wu, J(吴军)* Hausdorff dimension of certain sets arising in continued fraction expansions
- 20** Wang, BW(王保伟); Wu, J(吴军) Approximation ratio of the digits in Oppenheim series expansion
- 21** Hu, XH*; Wang, BW(王保伟); Wu, J(吴军); Yu, YL Cantor sets determined by partial quotients of continued fractions of Laurent series
- 22** Xu, Jian (徐剑) On sums of partial quotients in continued fraction expansions
- 23** Li, QD(李清都); Yang, XS(杨晓松) Hyperchaos from two coupled Wien-bridge oscillators
- 24** Yang, XS(杨晓松), Guanrong Chen Limit cycles and chaotic invariant sets in autonomous hybrid planar systems
- 25** Yang, Xiao-Song(杨晓松), Yuan, Quan Emergent chaos synchronization in nonchaotic CNNs
- 26** Yuan, Quan, Yang, Xiao-Song(杨晓松) COMPUTER ASSISTED VERIFICATION OF CHAOS IN THE SMOOTH CHUAS EQUATION
- 27** Yang, Xiao-Song(杨晓松) 3-D cellular neural networks with cyclic connections cannot exhibit chaos
- 28** Gui, ZJ, Yang, XS(杨晓松), Ge, Weigao Existence and global exponential stability of periodic solutions of recurrent cellular neural networks
- 29** Liu, DB; Yang, XS(杨晓松) Global stabilization of the new chaotic system based on small-gain theorem
- 30** Li, H; Bai, X; Yang, XS(杨晓松) Stability results on a chemical system
- 31** Yuan, Quan, Li, QingDu Yang, Xiao-Song(杨晓松) Horseshoe in a model of artificial neural network
- 32** Wang, JL(王金良); Zhou, L(周笠); Tang, YB(汤燕斌) Asymptotic periodicity of the Volterra equation with infinite delay
- 33** He Jin-Chun(何进春), Chen ZY, Yan T, Huang NN Inverse scattering transform in squared spectral parameter for DNLS equation under variable coefficients
- 34** He Jin-Chun(何进春), Chen ZY Comment on Revision of Kaup-Newell's Work on IST for DNLS Equation
- 35** Chen ZY, He Jin-Chun(何进春), Huang NN Demonstration of Inverse Scattering Transform in G-L-M Formalism for NLS Equation in vanishing Boundary
- 36** Sun Chunyou; Yang Meihua(杨美华) Dynamics of the nonclassical diffusion equations
- 37** Hui Yin(尹慧), Huijiang Zhao, Jongsung Kim Convergence rates of solutions toward boundary layer solutions for generalized Benjamin-Ono equations in the half-space
