

# Joint China-France-Russia Symposium on Probability Theory

Time: September 18, 2017 — September 23, 2017

Registration Deadline: August 22, 2017

Location: Room 77201, Jingchunyuan 78, BICMR

[Home](#)

[About Beijing](#)

## Description

The aim of the Symposium is to update a tradition of collaboration between probabilists in China, France and Russia, witnessed by two successful meetings in the past: the Joint China-France Symposium on Probability Theory held in the CIRM (Marseilles, France) in September 2008, the Joint China-Russia Symposium on Probability Theory in Saint-Petersburg, Russia in May 2013.

The Workshop will last a week, covering various topics on probability theory and random processes as well as their applications. It will be held in the Beijing International Center for Mathematical Research, located in the beautiful campus of Peking University.

## Organization Committee

Dayue Chen (Peking University)

Fuzhou Gong (Academy of Mathematics and Systems Science (AMSS))

Yves Le Jan (University Paris-Sud)

Mikhail Lifshits (St Petersburg State University)

Zhan Shi (Universite Paris VI)

北京国际数学研究中心  
BEIJING INTERNATIONAL CENTER FOR  
MATHEMATICAL RESEARCH
