Call for Papers

The China-Japan Joint Conference on Computational Geometry, Graphs and Applications (CGGA 2010, Dalian) will be held on November 3-6 in Dalian, China, supported by National Natural Science Foundation of China (NSFC). The past conferences were held in Tokyo as JCDCG 1997, 1998, 2000, 2002, 2004 (Japan Conference on Discrete and Computational Geometry), in Kyoto as KyotoCGGT 2007 (Kyoto International Conference on Computational Geometry and Graph Theory) and in Kanazawa as JCCGG 2009 (Japan Conference on Computational Geometry and Graphs). Other conferences in this series were also held in Philippines (2001), Indonesia (2003) and China (2005).

CGGA 2010, Dalian is mainly intended to provide a forum for researchers working in computational geometry, graph theory/algorithms and their applications. Original research papers in these areas and their applications are sought. Applied and experimental papers are expected to show convincingly the usefulness and efficiency of algorithms discussed in a practical setting.

The topics include, but are not limited to:

- Computational geometry
- Discrete geometry
- Graph algorithms
- Graph theory
- Their applications

Submission to CGGA 2010, Dalian

Papers reporting on original research as well as surveys of important results are welcome. Authors should submit an extended abstract (not a full paper), not exceeding 2 pages on A4 paper, including references, figures, title, authors, affiliations, and e-mail addresses. Use reasonable margins and at least 10-point font.

Papers will be selected based on their originality, significance, relevance, and clarity of presentation. The collection of accepted papers (abstracts) will be available for distribution at the conference.
