

**11th Annual IEEE International
Systems Conference**

April 24-27, 2017

Montreal, Quebec, Canada

The subscription service is currently unavailable. Please try again later.

 **November 4, 2016**
Initial Manuscript Deadline

 **December 14, 2016**
Acceptance Notification

 **February 24, 2017**
Final Manuscript Deadline

The 12th Annual IEEE International Systems Conference
SYSCON 2017
Vancouver, Canada | JW Marriott Park Vancouver | April 23-26

ORGANIZERS
General Chair
Sub Ross
Raytheon Company
rossr@raytheon.com
Technical Program Chair
Sidney Givigi
Royal Military College of Canada
sgivigi@rmc.ca

IMPORTANT DATES
September 15, 2017
Special Session Proposal Deadline
November 1, 2017
Initial Manuscript Deadline
December 14, 2017
Acceptance Notification
February 13, 2018
Final Paper Deadline

The IEEE Systems Council facilitates interactions among communities of interest on system-level problems and applications. System-level thinking is essential in the world today, not only for technical systems, but also for society at large. The Council addresses the discipline of systems engineering, including theory, technology, methodology, and applications of complex systems, system-of-systems, and integrated systems of national and global significance.

PAPER SUBMISSION
The conference caters to both practitioners and academics, providing a forum to exchange ideas and experiences on technology, methodology, applications, study cases, and practical experiences.
For this purpose, the format of the submissions is requirements:
* **Case studies and practical experiences in the industry:** short papers presenting practical ideas, real cases, and practical achievements.
* **Research and application papers:** long manuscripts addressing novel ideas, theoretical issues, technology, methodology, and applications.
Papers of both categories should be submitted electronically to the EDAS IEEE SysCon 2018 Submission Portal.
To simplify papermaking to tracks, authors will be limited to selecting one topic area only from the listing above. If the paper does not fit any of the topic areas, there will be an "other" option. For comprehensive information, please reference the conference web site at <http://ieeesyscon.org>.

Topic areas for consideration include:

- * Systems Engineering
- * Engineering Systems-of-Systems
- * Systems Architecture
- * Complex Systems
- * Cyber Security
- * Cloud Computing
- * Modeling & Simulation
- * Model-Based Systems Engineering
- * Systems Engineering Education & Theory
- * Systems Integration & Verification
- * Decision-making for Complex Systems
- * Autonomous Systems
- * Robotic Systems
- * Sensors Integration & Application
- * Large-Scale Systems Integration
- * Space and Communication Systems
- * Medical Systems
- * Defense Systems
- * Gaming and Entertainment Systems
- * Transportation Systems
- * Environmental Systems
- * Energy Management and Sustainability, including Renewable Energy

IEEE SYSTEMS COUNCIL

IEEE

IEEE Systems Conference 2017

SysCon 2017 has just concluded in Montreal, with almost 200 attendees, and we would like to take the time to thank everyone who contributed to the success of the conference.

We hope all attendees found the conference enjoyable! The full conference proceedings of over 110 papers will be published to IEEE Xplore shortly, and we trust that you will find the material informative and innovative.

We would also like to take the opportunity to invite you to submit your work to the 2018 IEEE International Systems Conference, to be held in Vancouver, April 23-26, 2018.

The IEEE Systems Council facilitates interactions among communities of interest on system-level problems and applications. System-level thinking is essential in the world today, not only for technical systems, but also for society at large. The Council addresses the discipline of systems engineering, including theory, technology, methodology, and applications of complex systems, system-of-systems, and integrated systems of national and global significance.
