**Quantum entanglement between a nonlinear nanomechanical resonator and a microwave field**

Charles P.

Meaney, Ross

H. McKenzie, G.

J. Milburn

*(Submitted on 20  
Oct 2010)*

We  
consider  
a  
theoretical  
model  
for a  
nonlinear  
nanomechanical  
resonator  
coupled  
to a  
superconducting  
microwave  
resonator.
