2018 PhysTEC Conference

February 9, 2018 - February 10, 2018 in College Park, Maryland at the American Center for Physics

The Physics Teacher Education Coalitions Annual Conference is the nation's largest meeting dedicated to the education of future physics teachers. It featured workshops on best practices, panel discussions by national leaders as well as excellent networking opportunities for physics teacher educators.

The conference began Friday, February 9 and ended Saturday, February 10, 2018 at the American Center for Physics in College Park, MD.

Download slides from a few of the notable presentations below (PDF):
