收稿日期 1988-2-1 修回日期 网络版发布日期:

**摘要** <正> 近年来人体科学的研究表明,当人体处在气功和人体特异功能这二个功能态时,人体可以具有许多非凡的能力,同时人们可以观测到许多神奇的现象。原北京有线电厂职工赵学忠在气功诱发了特异功能之后,既具有透视功能又具有能感觉遗留信息的特异功能,被人们称为神医就是非常突出的一例。

## CHALLENGING PROBLEM TO MODERN PHYSICS——ABOUT STUDY OF PHENOMENA OF QIGONG AND SUPERFUNCTION OF HUMAN BODY

LI QINGLI Institute of Atomic Energy, P. O. Box 275, Beijing

**Abstract** At present, a lot of phenomena of Qigong (breathing exercises) and superfunction of human body can not be explained in terms of modern physics theory. It is necessary to form a new physics system including a thinking field and to conclude principles of motion and interaction of matter under the thinking field. It means that a new scientific revolution is coming.

**Key words** Qigong Breathing exercises Superfunction of human body Thinking field
