**个人简介:**

任兰正, 1978年生, 上海交通大学化学化工学院材料专业博士, 中共党员, 滁州学院材料与化学工程学院副教授, 从事无机化学、物理化学、高分子化学、物理化学实验和无机化学实验教学与研究。

研究方向: 离子液体的合成与应用, 纳米材料的制备。

科研情况:

主持结项安徽省教育厅科研项目2项(2010SQRL141, KJ2010B424)。发表一作论文9篇。

1. 任兰正*, 王金秀, 孙开莲. Preparation and Characterization of Single-crystalline Au Nanoplates Using an Alcohol Ionic Liquid. 材料科学与工程学报, 2012, 30(3): 337-342, 369.
2. Lan-Zheng REN*, Jin-Xiu WANG. Facile one-pot preparation of silver nanowires using an alcohol ionic liquid. Frontiers of Materials Science in China, 2010, 4(4): 398-401.
3. Lan-Zheng REN*, Jin-Xiu WANG. A simple hydrothermal route to fabrication of singlecrystalline silver nanoplates using poly(vinyl pyrrolidone), Frontiers of Materials Science in China, 2010, 4(4): 407-410.
4. 任兰正, 王金秀. 线形缩聚反应聚合度计算的解析. 滁州学院学报, 2010, 12(5): 38-39, 42.
5. L.Z. Ren, L.J. Meng, Q.H. Lu, et al. Fabrication of gold nano- and microstructures in ionic liquids - A remarkable anion effect. Journal of Colloid and Interface Science, 2008, 323(2): 260-266.
6. L.Z. Ren, L.J. Meng, Q.H. Lu. Fabrication of octahedral gold nanostructures using an alcoholic ionic liquid. Chemistry Letters, 2008, 37(1): 106-107.
7. L.Z.Re, L.J.Meng. Suzuki coupling reactions catalyzed by poly(N-ethyl-4- vinylpyridinium) bromide stabilized palladium nanoparticles in aqueous solution. Express Polymer Letters, 2008, 2(4): 251-255.
8. L.Z. Ren, L.J. Meng, Q.H. Lu. Mass Synthesis of Large, Single-crystal Gold Nanoplates Using a Pyridinium-based Ionic Liquid. 2008 2nd IEEE International Nanoelectronics Conference, 2008, 1-3: 293-296.
