News

We are pleased to announce the workshop "**Open Skies from China to South Africa -- Sharing Resources and Building Collaborations in Optical and Infrared Astronomy**". The goal of the workshop is to bring together astronomers from China and South Africa to focus on astronomical observations in the optical and near-infrared bands.

Programme is updated !

Date & Location

Oct 30 -Nov 1, 2017

Lijiang, China

Important Deadlines

Oct 25 2017 Deadline registration

Sponsors

The workshop is sponsored by a joint grant of the **National Astronomical Observatories, Chinese Academy of Sciences** and the **National Research Foundation of South Africa**.
