Nonlinear Processes in Geophysics (NPG)

Devoted to nonlinearity research in all areas of Earth, atmospheric and planetary sciences.
Chief-Executive Editor: Roger Grimshaw

A journal of the EGU in cooperation with AGU.

Indexed in Science Citation Index Expanded (Web of Science), Scopus, ADS, Current Contents, GeoRef and J-Gate. Included in the Directory of Open Access Journals (DOAJ) as well as in the Bodleian Library (UK), Deutsche Bibliothek (D) and Library of Congress (USA). Long-term e-archived in Portico.

Aims and Scope

Nonlinear Processes in Geophysics (NPG) is an international, interdisciplinary journal for the publication of original research furthering knowledge on nonlinear processes in all branches of Earth, planetary and solar system sciences. The editors encourage submissions that apply nonlinear analysis methods to both models and data.

The journal maintains sections for research articles, review articles, brief communications, comments and replies, and book reviews, as well as "Special Issues".

Issuing Body

Nonlinear Processes in Geophysics (NPG) is published by the Copernicus GmbH (Copernicus Publications) on behalf of the European Geosciences Union (EGU) and the American Geophysical Union (AGU).
