Meeting

AGU JING meeting

The AGU JING meeting (AJM2018) about atmospheric PM_{2.5} begins on 16th October 2018 and consists of a series of plenary sessions, regular sessions, and postersessions. It is with great pleasure that we invite you to attend the meeting, gather to present your work, discuss new discoveries and problems, exchange views and develop plans for the future of PM_{2.5} and related science and technology. This not only benefits the specialists but it also increases public awareness and knowledge and its diverse applications to important societal issues involving the environment, health, energy, materials and other facets of our life.

Date & Location

16-20 October 2018

Location: XI'AN, CHINA

Theme: Atmospheric PM_{2.5} in China: change, impact, mitigation and global perspective
