## Bentonite Performance Minerals LLC

Bentonite Performance Minerals LLC (BPM) is a world leader in the production of Wyoming bentonite, the benchmark in the global sodium bentonite industry. BPM has an 80 year history of product innovation and commitment to quality. Mined from the highest quality Wyoming reserves and carefully monitored during stockpiling and hauling, BPM bentonite is processed under careful supervision of our Quality Assurance Laboratories to ensure that both BPM and industry standards are met. BPM is committed to continual product improvements using statistical methods to document our progress. BPM was the first Wyoming bentonite producer to achieve ISO registration at all manufacturing locations. BPM is also licensed to use the API monogram labeling on its API bentonite products.

**MISSION STATEMENT:** to develop, manufacture, market, and support the finest bentonite products in the world.

BPM products are leaders in a range of industrial, specialty, consumer and environmental markets worldwide. NATIONAL® Standard Bentonite serves the global metal casting market in four continents. HYDROBOND® Binder is a patented, engineered bentonite that adds value in a number of ways, to the cast metal industry. NATIONAL® Premium Bentonite is an industry benchmark in the global drilling fluids and organophilic clay markets. BARA-KADE® Bentonite is a market leader in a range of barrier applications in the environmental liner industry. Please visit our products page for detailed information regarding all the BPM products and markets served.
