GeoShanghai is a series international conference on geotechnical engineering hold in Shanghai once four years. Since the successes of the 1st GeoShanghai International Conference in 2006 and the 2nd in 2010 gathering 400 and 350 colleagues from all over the world respectively, the geotechnical communities have witnessed many advances in soil and rock mechanics technology and engineering practices. In order to showcase the latest developments and promote international collaborations in geotechnical engineering and related areas, the organizers of the GeoShanghai International Conference 2014 would like to invite geotechnical researchers, practitioners and educators from all over the world to participate in the 3rd GeoShanghai International Conference to be held in Shanghai in May 2014.

## Important Dates

### Abstract due

May 31, 2013

**(Extended to June 30, 2013)**

### Acceptance of abstract

June 30, 2013

**(Extended to July 15, 2013)**

### Full paper due

August 31, 2013

**(Extended to September 20, 2013)**

### Acceptance of full paper

November 30, 2013

Provide a showcase of recent developments and advances and offer an international forum to discuss and debate future directions for geotechnical engineering.

**Final full paper due**

January 31, 2014

**(Advanced to  
January 5, 2014)**

Deadline of full paper submission had been extended to September 20, 2013!

## Call For Paper Abstracts

GeoShanghai 2014 welcomes the submission of abstracts for consideration as oral or poster presentations.

Note: Abstracts may be submitted only via the web in accordance with the instructions on the conference website at [www.geoshanghai2014.org](http://www.geoshanghai2014.org).

[Learn More](#)

## Exhibition

Lab, field testing, instrumentation, geosynthetics, and other geotechnical manufacturers, suppliers, contractors, installers, and consulting firms are welcome to exhibit.
