

## Call for papers ([PDF](#))

The 8th International Conference on Information Science and Technology (ICIST 2018) will be held in Cordoba, Granada, and Seville, the pearls of Andalusia in Spain during June 30-July 6, 2018, following the successes of previous events.

ICIST 2018 aims to provide a high-level international forum for scientists, engineers, and educators to present the state of the art of research and applications in related fields. The conference will feature plenary speeches given by world renowned scholars, regular sessions with wide coverage, and special sessions focusing on popular topics.

Prospective authors are invited to contribute high-quality papers to ICIST 2018. In addition, proposals for special sessions within the scopes of the conference are solicited. Special sessions, to be organized by internationally recognized experts, aim to bring together researchers in special focused topics. Papers submitted for special sessions are to be peer-reviewed with the same criteria used for the regular sessions. Researchers interested in organizing special sessions are invited to submit formal proposals to ICIST 2018. A special session proposal should include the session title, a brief description of the scope and motivation, names, contact information and brief biographical information of the session organizers.

Authors are invited to submit full-length papers (8 pages maximum) by the submission deadline through the online submission system. Session organizers are also invited to enlist six or more papers with cohesive topics to form special sessions. The submission of a paper is accepted only if the paper is original and has not been submitted under review or is not copyright-protected elsewhere and will be presented by the author(s).

All submitted papers will be refereed by experts in the field based on the criteria of originality, significance, quality, and clarity. The accepted papers will have an opportunity to revise their papers and take consideration of the referees' comments and suggestions. **All papers are contracted to be included in IEEE Xplore and expected to be indexed in EI.**
