

Genomic coordinates and annotations for a region on chromosome 1. The image shows a dense grid of genomic data, including coordinates (e.g., 100000000, 100000001), gene names (e.g., PTT10, PTT11, PTT12), and various annotations (e.g., B visible=3, B visible=4, B visible=5). The data is organized into columns and rows, with some rows containing detailed gene models and others containing coordinate ranges. The text is highly repetitive and technical, typical of a genomic track visualization.

Complex text containing various symbols, numbers, and characters, possibly representing a data table or a list of items. The text is highly repetitive and contains many small, illegible characters and symbols.

... (The page contains a dense grid of text, likely a technical document or a data table, with many lines of text and some bolded sections. The text is too small and dense to transcribe accurately, but it appears to be a structured document.) ...
