Dr. Michael Manfredo

2016-03-21 08:23:35 浏览: 77次

Dr. Michael Manfredo, Head, Professor, the Department of Human Dimensions of Natural Resources. Michael's research focus is on understanding human thought about wildlife and natural resources. The goals of his current research program are: to increase the availability of human dimensions information relevant to wildlife and natural resource management; to provide for increased understanding of the role of human dimensions information in natural resources decision-making; to facilitate the integration of human dimension information into the natural resource decision-making process.

迈克·曼弗瑞多,校长,科罗拉多州立大学人类学系的教授。迈克尔的研究重点是人类关于野生动物和自然资源的思考和理解。
