## Welcome to the International Conference on Mechanical Properties of Materials

### First Announcement

(June 12-15, 2011; Hangzhou, China)

<http://www.icmpm.cn>

The International Conference on Mechanical Properties of Materials (ICMPM) is to provide a platform for the researchers working on materials and mechanics to disseminate the results related to mechanical properties of materials. The objective of the conference is to promote the interaction and collaboration between scientists and engineers from materials science and mechanics. A particular interest is placed on the relationship between the mechanical properties of the materials, such as strength, fracture, fatigue, stability, creep, and plastic deformation, and the physical mechanisms and microscopic characterization of the materials. While an emphasis will be placed on metallic materials, other materials such as nonmetallic, biomaterials, polymers, and functional and composite materials will also be welcome.

## Conference Site

Zhejiang University (Yuquan Campus 玉泉)

38 Zheda Road, Hangzhou 310027, P.R. China

TEL:+86-571-87952024 FAX:+86-571-87951769(<http://www.zju.edu.cn>)

## Conference Venue

The conference will be held in the Shao-Yifu Science Building at the Zhejiang University Yuquan Campus. All sessions, meetings, discussions, and refreshments during coffee breaks will be within one building. All rooms are equipped with advanced presentation technologies including internet access.

## Social Activities
