New Resources Emerging Because of Diminishing Arctic Ice Pack

The resource environment along Canada's 162,000 kilometres of Arctic coast line, the lion's share of it along Nunavut's mainland and island archipelago, is daunting to say the least, but thankfully the wind-chill factors...

Minto Mine Steps out in Productive Fashion

When Sherwood Copper of Vancouver started the Minto mine in 2007, it was an open-pit copper-gold-silver operation with a projected four-year mine life and a 1,600-tonne-per-day throughput.

Water Right is Essential for Success in the Arctic

Of all the issues facing mining operations in the Arctic — punishing distances and extreme cold among them -- one of the biggest factors differentiating a project from becoming a "success" or a "costly learning experience," is the...

GUEST COMMENT: OMS's video contest migrates to South Australia

If indeed "imitation is the sincerest form of flattery," then the Ontario Mining Association has a big fan in an antipodean counterpart. The South Australian Chamber of Mines and Energy (SACOME) has recently launched "Dirt TV..."
