## 2012年发表的SCI论文

发布者：系统管理员 发布时间：2018-06-24 浏览次数：19

序号	作者	论文题目	发表刊物	发表时间 (年, 期 (卷): 页码)
1	倪红卫	Antibacterial properties and corrosion resistance of AISI 420 stainless steels implanted by silver and copper ions	International Journal of Minerals, Metallurgy and Materials	2012,4(19):322-327
2	熊玮	Calculation and Analysis of Liquid Holdup in Lower Blast Furnace by Model Experiments	Metallurgical and Materials Transactions B	2012,3(43):562-570
		The Failure Mechanism and	Journal of Iron and Steel	

- |    |     |   |   |                        |
|----|-----|---|---|------------------------|
| 3  | 熊玮  | Material Requirements for Coal Lance in Blast Furnace   | Research, International                       | 2012,4(19):11-16       |
| 4  | 薛正良 | Study on TiN Precipitation During Solidification of Hypereutectoid Tire Crod Steel  | Metalurgia International                      | 2012,9(17):10-15       |
| 5  | 薛正良 | Study on melting molybdenum steel by direct alloying with self-reduction briquette of molybdenum oxide.   | Metalurgia International.                     | 2012,4(17):83-85       |
| 6  | 薛正良 | Research on Surface Slag Inclusion in Continuous Casting Slab.  | Metalurgia International                      | 2012,4(17):106-110     |
| 7  | 高运明 | REDUCTION OF MOLYBDENUM OXIDE FROM STEELMAKING SLAGS BY PURE LIQUID IRON  | J. Min. Metall. Sect. B-Metall.               | 2012,1(48B):25-36      |
| 8  | 吴隽  | The AC Impedance and Variable Temperature Dielectric Spectroscopic Analysis of MnO <sub>2</sub> Doped and Un-doped ZnO-V <sub>2</sub> O <sub>5</sub> Ceramics                   | J.Mater.Sci.-Mater.Electron.                  | 2012,7(41):1970-1977   |
| 9  | 吴隽  | The Influence of Dopants on the Electrical Properties of ZnO-V <sub>2</sub> O <sub>5</sub> Varistors Deduced from AC Impedance and Variable Temperature Dielectric Spectroscopy | Journal of Electronic Materials               | 2012,6(23):p1143-1150  |
| 10 | 祝柏林 | Thermal, dielectric, and compressive properties of hollow glass microsphere filled epoxy-   | Journal of Reinforced Plastics and Composites | 2012,31(19) :1311-1326 |

		matrix composites		
		Optimization of sputtering parameters for deposition of Al-doped ZnO films by rf magnetron sputtering in Ar+H <sub>2</sub> ambient at room temperature	Thin Solid Films	2012,520(23): 6963-6969
11	祝柏林			
		Thickness study of AZO films by RF sputtering in Ar+H <sub>2</sub> atmosphere at room temperature	Physica Status Solidi A	2012,209(7): 1251-1258
12	祝柏林			
		Investigation of structural, electrical, and optical properties for Al-doped ZnO films deposited at different substrate temperatures and H <sub>2</sub> ratios	Journal of The Electrochemical Society	2012,159(5):H536-H544
13	祝柏林			
		A method to study interface diffusion of arsenic into a Nb-Ti microalloyed low carbon steel	International Journal of Minerals, Metallurgy and Materials	2012,9(19):821-826
14	朱远志			
		Grain boundary segregation of minor arsenic and nitrogen at elevated temperatures in a microalloyed steel	International Journal of Minerals, Metallurgy and Materials	2012,5(19):399-403
15	朱远志			
		Macroscopic Distribution of Residual Elements As,S,and P in Steel Strip Produced by Compact Strip Production (CSP) Process	Metallurgical and Materials Transactions A	2012,7(43A):2509-2513
16	朱远志			
		Comparison study of single direction and friction assisted compaction of multiple alloy	Powder Metallurgy and Metal Ceramics	2012,9(50):586-595
17	朱远志			

powders by finite element  
simulation
