## 2012年被收录的三大索引文章

更新时间: 2012-12-25

序号	论文名称	刊物名称	收录类别	作者
1	Design and realization of auto-programming system for SLS on CAD	Advanced Materials Research	EI索引	陈青果
2	Orthogonal experiment design and analysis on ABS power in SLS	Advanced Materials Research	EI索引	陈青果
3	Experimental investigation on the heat charging process by paraffin filled with high porosity copper foam	Applied Thermal Engineering	SCI索引	崔海亭
4	Study of detecting defect system for the images of medical aluminum-plastic cap	Advanced Materials Research	EI索引	单根立
5	The structure design and motion simulation for drilling jumbo based on UG	Advanced Materials Research	EI索引	单根立
6	Numerical Simulation of Fractal Tree-shaped Flow Field Structures in PEMFC	New Trends in Mechatronics and Materials Engineering	EI索引	董金华
7	An online monitoring, diagnosis and control system for heavy duty NC machine tool	Applied mechanics and materials	EI索引	贾广飞
8	Analysis of stiffness of viscoelastic-friction damper for high-speed rotor system	Advanced Materials Research	EI索引	李文忠
9	A strips dispersion measuring device developed	Materials Processing Technology	EI索引	刘芬
10	Nb Microalloyed Steel of grain coarsening law	Advanced Building Materials and Sustainable Architecture	EI索引	刘芬
11	Optimum design of drive project in lathe speed-change system	Advanced Manufacturing Technology	EI索引	刘芬
12	The Research on Measuring Sensor for Steel Bars in Reinforced Concrete and Its Circuit	The International Conference on Consumer Electronics, Communications and Networks (CECNet 2012)	EI索引	刘芬
13	The research and development of a new type of metal wire-buckling	Mechatronics and Intelligent Materials	EI索引	刘跃辉

	machine	II		
14	Study of the Hydraulic synchronous circuit and Synchronous control of the hydraulic hoist	Applied Mechanics and Materials	EI索引	宁辰校
15	The Design of Flying-sawing Machine Control System Based on Fuzzy Control	Applied Mechanics and Materials	EI索引	宁辰校
16	Nonsmooth and Smooth Bifurcations in A Discontinuous Piecewise Map	International Journal of Bifurcation and Chaos	SCI索引	秦志英
17	Nonsmooth dynamics analysis of a switching controlled system	The International Conference on Automatic Control and Artificial Intelligence	EI索引	秦志英
18	A path planning model based on point structure in on-line reverse system	Applied Mechanics and Materials	EI索引	杨光
19	Experimental study of effecting factors for plant straw densification	Advanced Materials Research	EI索引	于新奇
20	Numerical Analysis on Sealing Properties of Mechanical Seals with a Laser-Textured Face	Applied Mechanics and Materials	EI索引	高慧琴
21	Development of range sensor based on infrared sensor arrays and real-time signal processing system	Advances in Information Sciences and Service Sciences	EI索引	张付祥
22	Real-time signal processing method for infrared sensor arrays	Applied Mechanics and Materials	EI索引	张付祥
23	Characteristic Finite Strip Analysis of Sheet Materials on Multi-Intelligence Agents	Advanced Materials Research	EI索引	张君彩
24	Dynamic load effecting on asphalt pavement life by multi-intelligence agents	Advanced Materials Research	EI索引	张君彩
25	The research of CAE active knowledge aided system based on network	Applied Mechanics and Materials	EI索引	张锡爱
26	Design and Implementation of Control System in Ultrasonic Detection Machine for Plate Part	Advanced Materials Research	EI索引	张新聚
27	Design and Implementation of Control System in Ultrasonic Detection Machine for Shaft-Tube-like Part	Applied Mechanics and Materials	EI索引	张新聚
28	Numerical simulation of vibration sieve based on DEM	Advanced Materials Research	EI索引	赵月静
