About Yanshan University

The origin of Yanshan University can be traced back to the Harbin Institute of Technology (HIT) founded in 1920. In 1958, the Department of Heavy Machinery of HIT and its related specialties moved to the strategic industrial town of Fulaerji, Qiqihar in Northeast China's Heilongjiang Province and was renamed the School of Heavy Machinery of HIT. In 1960, the school became independent as the Nor...[\[Details\]](#)

Welcome to ICACMVE 2017

Welcome to Yanshan University. Located north to the Yanshan Mountain and south to the Bohai Sea, our campus is truly an exciting place drawing global talents to realize their dreams. Our old generations answered the call of their time with the spirit of "hard working, rigorous scholarship and creative innovation"; they braved the wind and the rain and endured great hardships in pioneer work. They migrated from Harbin Institute of Technology to the Northeast Heavy Machinery Institute and then to Yanshan University. Two times of start from scratch, 90 years course of hardship; they formed and made a perfect illustration for the university motto of "Sound in Morality, Broad in Learning and Honest in Seeking". With the accumulation of long history experience, our institution has always been at the forefront to climb the science peak with the guidance of "unity, progress, by the people and for the people".
